

Elder Medical Care at Home

You may benefit from Home Care services if you:

- **Have a serious illness**
- **Are unable to leave your home**
- **Need assistance** with many of your activities of daily living
- **Are 55 or older**

Elder Medical Care at Home brings Nurse Practitioners and/or Physicians directly to you. Wherever you call home, our providers will come to you and provide medical care that is focused on symptom management. In addition, social workers are also available to assist with other factors that may be impacting your overall health.

Can I still receive Medicare home health services while under Elder Medical Care?

Yes. Elder Medical Care at Home and Medicare home health services are billed separately. You can receive support from both services simultaneously.

How Can Elder Medical Care at Home Help You?

Gilchrist's team of experts in primary care provide:

- Comprehensive **health assessments**
- Customized and coordinated **care at your home**
- Support for your **goals of care**
- Help making decisions through **advance care planning, and education and guidance** about the likely progression of your illness
- **Reduction in stress** for caregivers and their loved ones
- **24/7 on-call support** during a health care crisis, and a visit within two working days for urgent needs
- **Education on living with your illness**
- Assistance accessing available and needed **community resources**

In addition to medical care, we provide emotional, social and volunteer support. We are here to offer you the resources and support you and your family need to maintain the best quality of life.
