## Our Pediatric Care

We provide relief from physical, emotional, social, and spiritual suffering, focusing on the individual goals of each child and their family.

Our hospice team offers symptom management to support every child's medical, emotional, and spiritual needs. Children receiving Gilchrist Kids hospice care may **continue to receive life-sustaining and curative treatments through Concurrent Care**, which is determined in partnership with each family and their insurance provider.

## Our Care Team

Our interdisciplinary team—comprised of a child life specialist, nurses, physicians, social workers, spiritual counselors, aides, volunteers, and music therapists—works together to ensure compassionate, comprehensive care throughout your child's journey.
